Introduction

This directory provides a list of MedCare Partners Health Plan of Texas' network providers.

You will have to choose one of our network providers listed in this directory to be your Primary Care Provider (PCP). Generally, you must get your health care services from your PCP. There are several types of providers that may serve as your PCP, and these include: Family Practice, General Practice, and Internal Medicine. The term "PCP" will be used throughout this directory.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. For services requiring a referral, your PCP will provide the referral when needed. Your care is directed by your PCP, and they may not admit to all network hospitals or skilled nursing facilities, or they may not refer to all network providers. Before you receive any services, always check whether your doctors, facilities, and providers are in-network with MedCare Partners Health Plan of Texas. If you want to use a specific hospital, skilled nursing facility, or provider, call our Member Services to confirm that your doctor is in the network.

If you choose to use providers who are not in MedCare Partners Health Plan of Texas' network, you may incur higher costs. In some cases, you might receive a bill from a non-plan provider for the entire amount of your medical care. Do not pay this bill. Instead, please send us the bill along with any proof of payment you have made, and we will review it for determination.

Mail your request for payment, along with the bills and receipts, to:

MedCare Partners Health Plan of Texas
11602 Bellaire Blvd
Suite C/D
Houston, TX 77072

If we decide that your medical care is not covered or that you did not follow the required plan rules, we will deny payment and send you a letter explaining our decision and your rights to appeal.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor MedCare Partners Health Plan of Texas will be responsible for the costs.
